

Tax Bill Printing and Mailing Questions Received as of February 1, 2022

- 1. Would the district be open to a standard format available from a vendor that is not to specification?**

Vendors should submit two bids, one meeting our specifications and an alternate that would match the vendor's standard bill.

- 2. Bar Code Clarification**

Bar code should be provided using the parcel number for the format. This is the standard for each municipality.

- 3. Bid Award Timeline and Standardized Bill Deadline Clarification**

April will be the latest that awarding of the bid would occur. Each district will be able to communicate the proposed award prior to the April 28th date. This will allow for additional time to ensure the standard bill is ready for May 2nd.

- 4. Software Demonstration**

The bid process does not require a software demonstration. If determined to be awardee, a demonstration would be requested at that time.
