- Q7. What is your standard networking (switches/routers) equipment manufacturer?
Cisco
- Q8. What is the historical poundage for the decommissioned IT Assets given for each category (total 25) on page 12?
We do not weigh our IT assets.
- Q9. Will you look at a **consignment-model** proposal as well?
Our current proposal requirements are set forth as noted in the proposal specifications. You must be able to meet all of the requirements and scope of work.

You may choose to add any alternative solutions to your proposal on recycling by weight. It is best to give examples of what we could expect to see back on revenue and the costs involved that would be passed on to us as noted in the specifications.

You should include information if you are part of any Consortiums or Costars.

Everything we receive will be reviewed and further questions asked at that time if needed.
