

# **Summer at the North Wales Area Library!**

**GSK Science in the Summer, in partnership  
with The Franklin Institute:**

## **Science in the Summer – Be An Engineer!**

Be an engineer at home this summer! Science in the Summer is a fun free STEM program that aims to inspire the next generation of scientists and engineers with online lessons, videos, and live virtual events.

**May 3 through 21, enter a lottery for a FREE kit of at-home experiments.**

Families do not need to win an experiment kit from the lottery in order to participate. Program activities are free and open to all.

For information, experiments, and details about entering the lottery for a FREE kit, visit: <http://scienceinthesummer.fi.edu> – be sure to designate North Wales Area Library as your pick up location.
