

Virtual Program: “What Every Parent Needs to Know about Online Access to Drugs and Other Harms”

Thursday, April 27, 2023 at 12:00 p.m.

Brought to you by Jefferson Health - Abington's Community Health Department and The Council of Southeastern Pennsylvania, Inc.

With increased access to technology and social media, kids and young adults have easier access to alcohol, tobacco, marijuana and other drugs than ever before.

Join David Fialko, BS, ICPS, NCTTS, Internationally Certified Prevention Specialist and a Nationally Certified Tobacco Treatment Specialist, for a discussion on how kids and young adults are ordering drugs online, in the privacy of their own home. Fialko will answer your questions and uncover the dangers of this heightened access to drugs, how adolescents have a low perception of harm and what you can do to protect them.

Registration is required.
